PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

The Fund is suitable for investors who:

- have a high risk tolerance level;
- have a medium to long term investment horizon;
- prefer a portfolio that conforms to Shariah principles; and
- seek for capital appreciation from an aggressive Shariah-compliant fund.

Investors should consult their financial advisers if in doubt whether this product is suitable for them.

Investor is required to undergo a suitability assessment process in order to determine the range of products that suit their risk profile and needs.

KEY PRODUCT FEATURES

WHAT UNIT TRUST FUND ARE YOU INVESTING IN?

- You are investing in a unit trust fund constituted in Malaysia that aims to provide investors to achieve capital growth over the medium to long term period by investing primarily in small-sized Shariah compliant companies listed on the Bursa Malaysia, in term of market capitalisation.
- The distribution of income (if any) is incidental and if any, will be made in the form of cash or additional units.

Please refer to **Section 3** of the Master Prospectus for further information on product features.

Investment Strategy

The Fund shall invest between 50% and 99.5% in a diversified portfolio of Shariah-compliant equities and Shariah-compliant equity-related securities of small-sized Shariah-compliant listed companies on Bursa Malaysia with market capitalisation of at least RM250 million but not more than RM1 billion (at the point of acquisition). However, the Fund may invest up to 20% of its NAV in Shariah-compliant equities and Shariah-compliant equity-related securities of companies with market capitalisation in excess of RM1 billion but not more than RM7 billion (at the point of purchase).

The research process will be based on relative performance analysis that is aimed at selecting a portfolio of Shariah-compliant equities among the stock universe as mentioned above that have the potential to have a good relative price performance.

The relative performance analysis will be conducted on a quarterly basis, or as and when the designated fund manager deemed necessary following significant changes in political or economic conditions in the countries, market indicators of relevant stock exchanges, or fundamentals of specific stocks that the Fund has held its

investment in.

The designated fund manager will actively monitor the investment portfolio of the Fund and will trade the stocks depending on the outcome of the relative performance analysis. The frequency of trading of securities will very much depend on market conditions.

The Fund may use derivatives for hedging purposes only and such derivatives must be Islamic derivatives. Islamic derivatives can provide an investment exposure similar to the purchase or sale of the underlying physical asset. They can also be used in risk management to protect the Fund from detrimental movements in underlying markets or investments. The Fund does not allow writing of option derivatives and short position of futures contracts. In any case, the Fund's exposure from the Islamic derivatives position must not exceed the Fund's NAV at all times.

Under normal circumstances, allocation to Shariah-compliant equities and Shariah-compliant equity-related securities ranges between 70% to 99.5% of its NAV. The remaining of the Fund's NAV shall be invested in Islamic money market instruments, Islamic deposit placements, sukuk and/or other Shariah-compliant permitted investments. The equity allocation may be reviewed from time to time depending on the global, regional and local economic as well as equity market conditions. This includes assessing the relevant political, economic and business environment prior to making investment decisions.

Please refer to **Section 3** of the Master Prospectus for further information on Fund's investment strategy.

Applicable Shariah Principles

- Investor appoints PMB Investment Berhad to manage and invest the Fund under the Islamic contract of 'Wakalah' or Agency.
- PMB Investment Berhad is appointed to undertake the investment activities on behalf of the investors for 'Ujrah' or fee.

Possible Outcomes

As the Fund will invest primarily in the Shariah-compliant equity market, its NAV and hence your investment capital will be subject to the market fluctuation. *Assuming as a result of the market movement, the Fund and your investment may possibly end with the following outcomes:

Movement of the Fund's NAV	Outcome of your investment capital
Increase by 10%	Increase by 10%
Decrease by 10%	Decrease by 10%

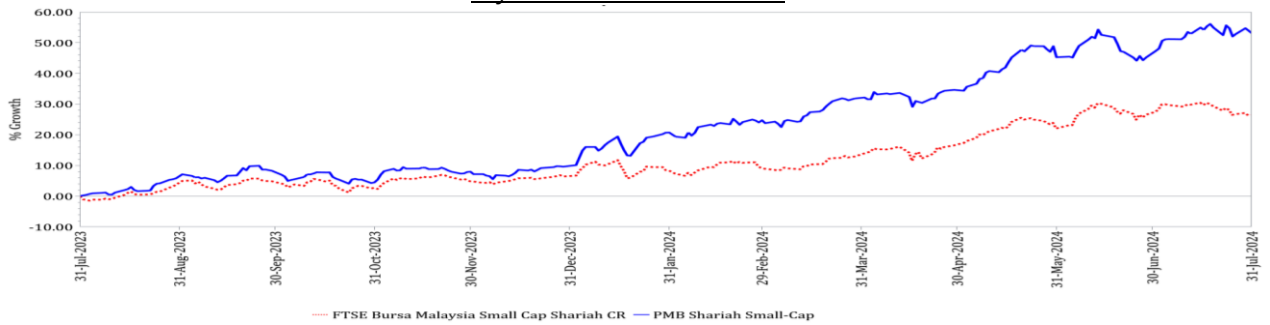

**Other things remain unchanged.*

KEY RISKS

You should be aware that –

- The value of your investment, and the distribution payable, may go down as well as up.
- The return of the Fund is not guaranteed.

Equity Market Risk

The performance of the Fund is subject to the volatility of the stock market which is influenced by the changes in the economic and political climate, interest rate, international stock market performance and regulatory policies. The movement of the value in the underlying investment portfolio will affect the NAV of the Fund. Any downward movement of the value will negatively impact the NAV of the Fund.

Stock Specific Risk

Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.

Equity-related Securities Risk

The value of the Shariah-compliant equity-related securities depends on the value of the underlying equities that the Shariah-compliant securities are related to. Any upward movement in the value of the underlying Shariah-compliant equities may result an upward movement of the value of the respective Shariah-compliant equity-related securities, and vice versa. Hence, the movement of the value of the Shariah-compliant equity-related securities will affect the value of the Fund. The fund may also invest in Shariah-compliant equity-related securities such as Shariah-compliant warrants, that have an expiry date and may experience time decay, and the erosion of value accelerates as the instrument advances to its expiry date. If the Shariah-compliant warrant is not exercised on or before the expiry date, the Shariah-compliant warrant will have no value and negatively impact the NAV of the Fund.

Shariah Status Reclassification Risk

(a) Shariah-compliant equity securities

This risk refers to the risk that the currently held Shariah-compliant equity securities in the portfolio of the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the SAC of the SC, the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose of such securities.

Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposal of the reclassified Shariah non-compliant securities. In such an event, the Fund is required:

- i) to dispose of such securities with immediate effect or within one (1) calendar month if the value of the securities exceeds or is equal to the investment cost on the effective date of reclassification of the list of Shariah-compliant securities ("Reclassification") by the SAC of the SC or date of review ("Review") by the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the effective date of Reclassification or Review. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities after the effective date of Reclassification or Review should be channelled to *baitulmal* and/or charitable bodies as advised by the Shariah Adviser;
- ii) to hold such securities if the value of the said securities is below the investment cost on the effective date of Reclassification or Review until the total subsequent dividends received (if any) and the market price of the securities is equal to the cost of investment at which time disposal has to take place within one (1) calendar month, excess capital gains (if any) from the disposal of the securities should be channelled to *baitulmal* and/or charitable bodies as advised by the Shariah Adviser; or

iii) to dispose of such securities at a price lower than the investment cost which will result in a decrease in the Fund's value.

- (b) Islamic fixed income instruments or Islamic money market instruments or Islamic deposits or Islamic collective investment schemes

This risk refers to the risk of a possibility that the currently held Islamic fixed income instrument or Islamic money market instruments or Islamic deposits or Islamic collective investment schemes invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such fixed income instrument or money market instruments or deposits or collective investment schemes.

Liquidity Risk

Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavorable prices.

The liquidity risk of the Fund also refers to the Manager's ability to honour redemption requests or to pay Unit Holders' redemption proceeds in a timely manner. This is subject to the Fund's holding of adequate liquid assets, its ability to seek financing on a temporary basis as permitted by the relevant laws and/or its ability to redeem the Fund's investments at fair value. Should there be inadequate liquid assets held, the Fund may not be able to honour requests for redemption or to pay Unit Holders' redemption proceeds in a timely manner and may be forced to dispose the Fund's investments at unfavourable prices to meet redemption requirements.

Islamic Structured Product Risk

The Manager may invest in Islamic structured products issued by financial institutions. The investment in Islamic structured products may pose certain risks, including but not limited to, as below –

- (a) the risk of default by the issuer of the Islamic structured products on the capital payment and/or profit payment;
- (b) the risk of return of the investment which may be lower than expected or none at all if the underlying reference linked to the product does not perform; and/or
- (c) the risk of liquidity due to 1) highly customised nature of the product, and 2) not being traded in an eligible market. Investors may receive less than an amount they have invested if they exit the investment prior to its maturity.

The Manager will mitigate the risks by selecting issuers of the Islamic structured products with a minimum long-term rating provided by any domestic or global rating agency that indicates strong capacity for timely payment of financial obligations, and investing in Islamic structured products that have a capital protection feature. Apart from that, the Manager will monitor any changes to rating of the issuers of Islamic structured products.

Islamic Derivatives Risk

The Manager may use Islamic derivatives for hedging and risk reduction purposes to protect the Fund from anticipated detrimental movements in the underlying markets or investments, depending on the market circumstances. While the use of Islamic derivatives may pose certain risks, including but not limited to:

- (a) the risk of loss from default by the counterparty, typically as a consequence of insolvency or failed settlement; and/or
- (b) the risk of the supply and demand factors in the Islamic derivatives market and in other related markets impacting the liquidity of the Islamic derivatives market adversely, which in turn would adversely affect derivatives pricing and the Fund.

Please refer to [Section 3.5](#) of the Master Prospectus and its Second Supplementary for further information on product specific risks.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

• Cooling-off Period

If you are a first time individual investor with the Manager shall have the right, within 6 Business Days, commencing from the day the completed application is received and accepted by the Manager to withdraw his/her investment in the Fund. However, this cooling-off period does not apply to a staff of the Manager and a person registered with a body approved by the SC to deal in unit trusts.

The refund pursuant to an exercise of a cooling-off right must be as follows:-

- a) If the original price of a unit is higher than the price of a unit at the point of exercise of the cooling-off right ("market price"), the market price at the point of cooling-off; or
- b) If the market price is higher than the original price, the original price at the point of cooling-off.

The Manager will refund the charges imposed on the day the units were purchased. The money payable out of this transaction will be refunded to the investor within seven (7) Business Days of the Manager's receipt of the repurchase request.

• Redemption

You may exit from this investment on any business day by completing a Transaction Form together with a photocopy of your NRIC.

- For a request to redeem units received or deemed to have been received by us on or before 3.00 p.m. on any Business Day, units will be redeemed at the NAV per unit calculated at the end of Business Day on which the request is received ("forward pricing").
- Where the repurchase request is received after the cut-off time, i.e. after 3.00 p.m., the request will be deemed to have been received on the next Business Day.
- Payment will be made within 7 Business Days of the receipt of redemption request, provided that all required documents are completed and verified.
- The proceeds of payment will be directly credited to your bank account via online banking services or telegraphic transfer
- We reserve the right to vary the terms and conditions of repurchase/redemption mode from time to time, which shall be communicated to you in writing.
- You may redeem your investment wholly or partially. There is no minimum number of units for redemption but you must meet the minimum holding of units after a repurchase transaction. If you insist on making a repurchase request knowing that after the transaction you will hold less than minimum holdings of units, we may withdraw all your units and we will pay the proceeds to you. We may, with the consent of the Trustee, reserve the right to defer your purchase request if such transaction would adversely affect the Fund or the interest of the Unit Holders.
- The value of the repurchase/ redemption price will be the NAV per unit at the end of the business day on which the request for repurchase/ redemption of units is received by us.
- No restriction is set on the frequency of redemption. For certificate holders, you can only redeem your units upon surrendering the unit certificate(s).
- No redemption fee is charged. However, bank charges and other bank fees, if any, will be borne by the Unit Holder.
- If the units are held in the names of more than one Unit Holder, where the mode of holding is specified as "Joint Application", redemption request will have to be signed by all the joint holders unless the joint applicant is a minor.

Please refer to [Section 5](#) of the Master Prospectus and its Third Supplementary for further information on determination of prices and redemption details.
